Toledo OH: November 15, 2018 Professor NGALULA MUBENGA awarded the Engineer of The Year Award by the Institute of Electrical and Electronics Engineers (IEEE)

Professor NGALULA MUBENGA, Managing Director of SMIN POWER GROUP SARL, received the Engineer of The Year award. The prize is awarded by the IEEE Institute of Electrical and Electronics Engineers, a professional association that brings together nearly 400,000 members around the world to promote technology for the well-being of humanity.

Receiving this award, Professor NGALULA MUBENGA said she was delighted by this recognition by her peers:

"It is with joy and humility that I receive this prize from the prestigious IEEE association. It is for me a recognition of the work done and especially a motivation for my current and future research so that they contribute to the greatest number."

This award culminates a successful year marked by numerous awards, the presentation of the first NGALULA MUBENGA STEM Excellence Scholarships and the launch of DRC STEM INITIATIVE.

About SMIN POWER GROUP SARL

Led by Professor NGALULA MUBENGA, SMIN POWER GROUP is specialized in the supply of electricity thanks to renewable energies.
